BASIS OF ESTIMATES

The total estimated cost of the Land Charges Service is £200,703 of which £707 and £92 has been estimated as the cost of providing personal searches of information relating the questions on forms CON29R and CON29O respectively.
 The estimates are based on staff time at average full cost rates and a share of systems and indirect costs.
 The estimated number of searches are based on actual search volumes for the past 12 months and a forecast for change in volume of enquiries over the coming year.
 The estimated cost per search is the estimated total cost divided by the estimated number of searches.
 The fee per search is the estimated cost less an adjustment to reduce the accumulated deficit on search fees.
 All fees are rounded to multiples of five pence.
